

CODE OF CONDUCT **EXTRA-CURRICULAR PARTICIPANTS**

Preamble

Participation in extra-curricular activities means more than competition between two individuals or teams representing different high schools. It teaches fair play and sportsmanship, understanding and appreciation of teamwork and the fact that quitting means failure while hard work and commitment means success. Participation in extra-curricular activities is a privilege that should only be accepted by a student who is totally committed year-round. With these goals in mind, this guide has been formulated for the use of all concerned. As the conduct of an extra-curricular participant is closely observed, be above reproach in all of the following areas:

During competition

The true competitor will give 100% at all times while in a competitive confrontation. A competitor has complete control of him/her self at all times. A competitor realizes that profanity is a sign of weakness rather than strength, and will refrain from its use. Although it is a most important goal that one hopes to realize, a competitor must learn that losing is a part of the game and that a competitor should congratulate his/her opponent on a well-played game after the contest. However, if there is nothing good to say to your opponent, leave the area immediately. Officials in a game or contest are there for the purpose to insure that both teams will receive a fair deal. Officials do not lose a game or contest for you. All dealings with the officials should be done by either the coach or designated captain and should be handled with total respect for the purpose of clarification or interpretation of a ruling. Any behavior that is contrary to this is a direct reflection on the school, team and coaches. Derogatory action toward officials will not be tolerated.

In the Classroom

Behavior and appearance in school is of great importance to the competitor. Competitors should be leaders and set the best possible example since fellow students respect and follow them.

The competitor should present themselves with a “neat, clean and professional” look at all times. As a member of an extra-curricular program, you represent Rochelle Twp. High School. It is important to remember that your appearance, behavior and attitude are not only a reflection on you as an individual, but is also a reflection on Rochelle Twp. High School and its extra –curricular programs. If there is any doubt about appearance, the building principal or designee will make the final decision.

Speak with respect to all students and faculty.

The true competitor realizes that he/she will have great influence over many fellow students in their school. A competitor will use this influence to set a good example toward the betterment of this school. The good competitor is also a good student. A competitor plans their time and energy so as to succeed both in competition and in the classroom. All competitors must meet the following eligibility requirements:

All participants must fulfill the scholastic standing requirements as stated in **I.H.S.A.**

By-Law 3.020:

- 3.021 **They shall be doing passing work in at least twenty (25) credit hours of high school work per week.**
- 3.022 **They shall, unless they are entering high school for the first time, have credit on the school records for 25 credit hours of high school work for the previous semester. Such work shall have been completed in the semester for which credit is granted or in a recognized summer school program which has been approved by the Board of Education and for which graduation credit is received.**
- 3.023 They shall not have graduated from any four-year high school or its equivalent.
- 3.024 Passing work shall be defined as work of such a grade that if on any given date a student would transfer to another school passing grades for the course would immediately be certified on the student's transcript to the school to which the student transfers.
- 3.025 Work taken in junior college, college, university, or by correspondence may be accepted toward meeting the requirements of this Section provided it is granted credit toward graduation from high school by the local Board of Education.

Each year the News Leader Award will be presented to that senior boy or girl who has achieved the greatest number of points during his or her four years in athletic competition. These points will be added to points earned according to his or her scholastic standing in class.

The Board of Education, administrative staff, and coaching staff of Rochelle Twp. High School District 212 is requesting your assistance in improving our extra-curricular program. We feel communication between the school and parents is imperative for a good program. This line of communication can start with an understanding of the rules and regulations of the Extra Curricular Code of Conduct. We, therefore, require each parent/guardian and participating athlete to sign acknowledging they have read this information.
